

Technology for Musicians
MUSI 507
Dr. Chapman Welch, Instructor
Room 1709 SSM
TTH 10:50AM-12:05PM
Office Hours: by appointment

Course Objectives

To provide student musicians with the computer skills necessary for modern musical life. The course will cover computer assisted notation, the basics of audio/video production, using social networking tools, and website creation. Students will complete assignments in each of these topics and will present a Final Project based on one or more of the topics covered in class. The applications discussed in class will include Finale, Logic Express, Final Cut Express, iMovie, and WordPress.

Computer Aided Notation and Composition

Basics of MIDI Input, score creation, and formatting using Finale

Introduction to Computer Audio

Physics of sound Recording basics (microphones, interfaces, recording techniques)
Audio Editing and Mixing

Introduction to Computer Video

Recording and Importing digital video
Introduction to iMovie
Exporting video for DVD and YouTube

Web Design and Website Building

Website design using Wordpress

Grading

30% Topic Assignments (Audio, Video and Finale)
60% Final Project (guidelines will be discussed in class)
10% Attendance and Participation

Absence Policy

Regular attendance is expected. Excessive absences (three or more) will result in a lower final grade.

Learning Disabilities:

Please contact me if you have a documented disability that may require some modification of seating, testing, or other class requirements so that appropriate arrangements can be made.
